

Personalized AI-Enabled Business Roadmap (12 Months)

■ Current Position

Working Professional with Project Management experience.

■ Target Goal

Start a business within 1 year and build sustainable market traction.

■ Skill Gap Analysis

Strengths: Planning, stakeholder management, execution, communication. Gaps: Business validation, AI leverage, sales, marketing, audience building, financial modeling.

■ Recommended Learning Plan

Q1: AI tools & business ideation. Q2: Customer discovery & MVP. Q3: Marketing, sales & automation. Q4: Scale operations and measure growth.

■ Suggested Projects

1) AI-assisted business idea validation. 2) Landing page + waitlist. 3) MVP launch. 4) Automated lead-generation workflow.

■ Networking Strategy

Publish weekly learnings on LinkedIn, join founder communities, attend 2–4 startup/AI events monthly, conduct 20 customer interviews.

■ Immediate Next Actions

Choose one business problem, validate with 10 potential customers, create an AI-assisted research workflow, and define a 90-day execution plan.

■ Monthly Milestones

Timeline	Milestone	Success Metric
Months 1–3	Idea Validation & AI Skill Building	10+ customer interviews, 3 ideas evaluated
Months 4–6	Build MVP	Working prototype and first users
Months 7–9	Market Testing	Consistent feedback and repeat users
Months 10–12	Launch & Growth	Revenue, traction, or clear PMF signals
